Galle, Southern Province, Sri Lanka | Tel: 071-7142999

SUMMARY

Undergraduate in BSc Applied Data Science Communication at General Sir John Kotelawala Defence University with strong expertise in data analysis, visualization, machine learning, and data mining. Skilled in Python, SQL, Excel, and Power BI, with hands-on experience building interactive dashboards and deriving actionable insights. Proficient in classification models, ensemble learning, NLP, and business intelligence tools. Eager to contribute in a data scientist or data analyst role within a forward-thinking organization.

SELECTED PROJECTS

Sri Lanka Tourism Analysis (2019–2025)

2025

Tech Stack: Python, Pandas, Matplotlib, Seaborn, Power BI, DAX

- Cleaned and integrated large-scale EPC datasets using SQL Server (handling missing values, duplicates, and data type conversions)
- Designed a relational data model linking certificates and recommendations using LMK_KEY
- Built interactive Power BI dashboards with DAX measures, KPIs, and geospatial visualizations
- Analyzed energy efficiency trends, CO₂ emissions, and cost patterns across 326,000+ properties
- Identified key insights such as high improvement potential (85%) and major cost drivers (heating)

AI Impact on Job Market & Automation Risk Analysis

2025

Tech Stack: Python, Scikit-learn, NLP, Random Forest, XGBoost, LightGBM, Ensemble Models

- Developed predictive models (Logistic Regression, Random Forest, XGBoost, LightGBM) to assess automation risk
- Built a stacking ensemble model achieving improved prediction performance (66% accuracy)
- Analyzed job-level and industry-level risk using structured and text-based features (skills, job roles)
- Identified high-risk sectors and emerging AI-driven job roles for workforce planning
- Applied NLP techniques to extract insights from job descriptions and skill requirements

Energy Performance Analysis – Manchester Local Authorities (2014–2024)

2025

Tech Stack: SQL Server, SQL, Power BI, DAX, Data Modeling

- Cleaned and integrated large-scale EPC datasets using SQL Server (handling missing values, duplicates, and data type conversions)
- Designed a relational data model linking certificates and recommendations using LMK_KEY
- Built interactive Power BI dashboards with DAX measures, KPIs, and geospatial visualizations
- Analyzed energy efficiency trends, CO₂ emissions, and cost patterns across 326,000+ properties
- Identified key insights such as high improvement potential (85%) and major cost drivers (heating)

Citizen Sentiment Analysis on Public Sector Issues in Sri Lanka (YouTube Data 2020–2025)

2026

Tech Stack: R, K-Means, Hierarchical Clustering, Apriori, Logistic Regression

- Collected and processed 7,000+ YouTube comments, refining to 2,500 cleaned Sinhala text records for analysis.
- Built a sentiment classification model using TF-IDF and Logistic Regression with class balancing techniques.
- Achieved 65% accuracy and improved minority class detection (macro F1-score: 0.60) through model optimization.
- Analyzed large-scale sentiment trends, identifying 67% negative public opinion linked to Sri Lanka's economic crisis.

UK Immigration Trends Analysis – Study & Work Visa Sponsorship

2025

Tech Stack: SQL Server, Power BI, DAX, Power Query, Star Schema Modeling

- Developed a structured SQL Server database to manage UK Home Office managed migration datasets (Study & Work Sponsorship).
- Built advanced SQL scripts for bulk data import, transformation, and cleansing (custom functions, data type corrections, numeric extraction).
- Designed cleaned analytical tables and implemented relational modeling for optimized reporting.
- Applied advanced DAX measures to calculate trend-based KPIs and multi-year visa sponsorship insights.
- Built interactive Power BI dashboards with drill-down filters, slicers, and trend comparisons.
- Identified post-Brexit migration patterns, sector-based shifts, and approval/refusal rate trends through data storytelling.

Club / Competition Projects

MindCare AI (Data Odyssey 2025 – Grand Finalist)

2025

Developed a student-focused mobile application with mood tracking, task planning, and habit management features to support mental well-being and productivity among university students. Selected to the Grand Finals (Top 12) of the Data Odyssey 2025 competition.

Data Odyssey 2025 – Media & Public Relations Lead | AI and Data Science Club

2025

Led media and public relations activities for the Data Odyssey event. Managed social media promotions designed certificates and invitations and coordinated the creation of the event souvenir while overseeing the media and design team.

SKILLS

Technical Skills	
Data Analysis & Programming	Python, SQL, R, Exploratory Data Analysis (EDA), Statistical Analysis
Machine Learning	Logistic Regression, Random Forest, XGBoost, LightGBM, KNN, Ensemble Models, NLP
BI & Visualization	Power BI (Dashboard Development, KPI Design, DAX), Data Storytelling
Data Engineering	Data Cleaning, Transformation, Missing Value Handling, Star Schema Modeling, SQL Server
Microsoft Tools	Excel (Pivot Tables, Charts), PowerPoint
Dev Tools & Platforms	Jupyter Notebook, VS Code, Google Colab, GitHub, Streamlit, Scikit-learn
Languages	English, Sinhala (Native)
Soft Skills	Communication, Teamwork, Leadership, Problem-Solving, Time Management, Adaptability, Work under Pressure

EDUCATION

Bachelor of Science in Applied Data Science Communication General Sir John Kotelawala Defence University, Rathmalana, Sri Lanka	2024 – Present
GCE Advanced Level (Art Stream) & Ordinary Level Southlands College, Galle Fort, Sri Lanka	2009 – 2022

AWARDS & CERTIFICATIONS

University Entrance Award – Awarded for outstanding performance (Faculty of Arts University of Ruhuna) G/Southlands College, Galle Fort, Sri Lanka	2025
Certifications Master Microsoft Power BI – Alison (2025) Certificate in Intermediate Level in English Language and Literature – Aquinas College (2023)	

VOLUNTEERING

Media Director (Public Relations) AI and Data Science Club KDU	2025 - 2026 General Sir John Kotelawala Defence University
- Led media and public relations activities for the AI and Data Science Club at the university. - Managed the club’s social media platforms and strengthened its online presence. - Designed visual materials including flyers, and promotional content. - Coordinated event promotions and campaigns, demonstrating strong communication and organizational skills.	
General Member Rotaract Club of KDU	2024 – 2025 General Sir John Kotelawala Defence University
- Participating in community service projects - Collaborate with club members on various activities.
